Is Short Term Medical right for you?

Short Term Medical insurance isn't for everyone. Find out what it covers and what it doesn't.

Short Term Medical insurance, as its name implies, isn't meant to be a long-term solution. While it covers some medical expenses, it doesn't cover everything. Make sure you take a look at what you need your health insurance to do for you and compare it to the benefits provided through Short Term Medical.

The examples provided are from larger lists of covered and non-covered services. For the complete listing of non-covered services, please refer to the Limitations and Exclusions pages in the back of this brochure.

COVERED

- Doctor visits, urgent care, ambulance service and emergency room care
- Diagnostic testing, mammograms, cancer testing, radiation therapy and Chemotherapy

What about out-of-pocket costs?

We have smart solutions for those, too.

Short Term Medical coverage helps you get the temporary health care coverage you need, when you need it. But, like other insurance plans, there are always out-of-pocket costs. Out-of-pocket costs include expenses you are responsible for like deductibles and coinsurance.

Add one of our Supplemental Coverage plans to get the out-of-pocket protection you need from costs not covered by your Short Term Medical plan. They're affordable options that help you broaden your financial protection and keep more money in your pocket.

Short Term Medical is nonrenewable

This Short Term Medical policy is nonrenewable, and plan termination is not considered a qualifying life event for purposes of enrolling in a major medical plan. Therefore, depending on the length of your coverage term, you may have a gap in insurance coverage until you can begin coverage with a new Short Term Medical or other health plan.

If you choose to purchase a new Short Term Medical plan, you must submit a new application. Any illness or condition that developed and was covered under your previous plan is considered a pre-existing condition and will not be covered by subsequent Short Term Medical plans. Reapplication may not be available in all states.

Short Term Medical does not meet Minimum Essential Coverage as mandated by the Affordable Care Act

Short-term, limited duration plans are not subject to certain provisions of federal health care reform, including the provisions related to Essential Health Benefits, lifetime limits, preventive care, guaranteed renewability, and pre-existing conditions. The pre-existing condition exclusion for Short Term Medical plans will apply for all insureds, including those under the age of 19. Know your plan. Short Term Medical plans offer affordable medical coverage, but are medically underwritten (so you can be declined) and do not provide Minimum Essential Coverage.

What does this mean for the applicant? They may have to pay a tax penalty, depending on their income level and the cost of plans available. Examples of the claims Short Term Medical plans do not cover are for most preventive care, maternity, mental health and treatment related to medical conditions they had prior to the plan's effective date. Because these plans are not guaranteed renewable, the applicant may not be eligible for another short-term plan after the plan's termination date; and the pre-existing condition exclusion will apply to any conditions that arose during any prior short-term plans.

THIS IS NOT QUALIFYING HEALTH COVERAGE ("MINIMUM ESSENTIAL COVERAGE") THAT SATISFIES THE HEALTH COVERAGE REQUIREMENT OF THE AFFORDABLE CARE ACT. IF YOU DON'T HAVE MINIMUM ESSENTIAL COVERAGE, YOU MAY OWE AN ADDITIONAL PAYMENT WITH YOUR TAXES.
